## EDUCATION AND TRAINING

### computer science

MiT

August 2024 - March 2025

## SUMMARY

Seasoned Senior Mobile Architect specializing in end-to-end, cross-platform development using Flutter and React Native for high-performance iOS and Android applications. Expert in managing the full product lifecycle, from translating custom UI/UX designs into pixel-perfect templates to architecting scalable, performance-driven solutions. Core expertise includes advanced state management (BLoC, Riverpod, Redux/MobX), rigorous performance profiling, and complex, secure integrations across high-demand environments like e-commerce, real-time systems, and Health & Wellness (HealthKit/Google Fit). Proven ability to deliver technical excellence that directly correlates with critical business outcomes.
